

CoolFormer™

**Reduce Your FCS® Prep Cycle
Times by Over 50%!**

Designed and manufactured here
at QCG, this sleekly
engineered tool merges 4
operations into 1, cutting your prep
cycle* times by over 50%**.

The QCG CoolFormer is
available in M6, M8, M10,
M12 & M16 for both rough
and finished C'Bores.

Please specify C'Bore diameter
when inquiring.

*The CoolFormer is also compatible with the
FastMill® workholding system by FPT®.

For more info call your QCG Sales Rep or contact
Inside Sales at insidesales@qcgcarbide.com
or 519.737.7825 today!

** Results based on actual
customer data. Reduction
times may vary.
